

REACH and POP Statement

The REACH regulation (EC 1907/2006) on Registration, Evaluation, Authorization and Restriction of Chemicals, entered into force on June 1st, 2007. The POP Regulation (2019/1021) on Persistent Organic Pollutants, entered into force on June 20th, 2019. Insight SiP has made the necessary preparations to comply with the REACH and POP Regulations.

Insight SiP is a supplier of system in package modules. The products that we supply are nonchemical products and under normal and reasonable use, they will not release harmful substance.

- Our products are categorized as "articles" as far as the REACH document is concerned. Insight SiP is therefore not obliged to register with the European Agency for Chemicals (ECHA).

To the present and best of our knowledge and based upon the information available to us from our suppliers, our delivered articles do not contain any of the 235 chemical substances included on SVHC (Substances of Very High Concern) candidate list valid from June 14th, 2023, in a concentration above 0.1% w/w.

(Reference URL: <https://echa.europa.eu/candidate-list-table>).

- For all articles we have sold or shipped, Insight SiP is compliant with the Regulation (EU) 2019/1021 list of controlled substances:
 - with prohibition of manufacturing, placing on the market and use of substances listed in Annex I, whether on their own, in mixtures or in articles (Art.3(1) and Annex I POP);
 - with restriction of manufacturing, placing on the market and use of substances listed in Annex II, whether on their own, in mixtures or in articles (Art. 3(2) and Annex II POP).

Insight SiP will continue to monitor the developments of REACH and POP and is committed to meeting our responsibilities as an environmentally sustainable company.
